

Wall Refill aquaBUBBLER

Product Code : ABWR21

Occupying zero ground space, the **Wall Refill aquaBUBBLER** is a space-saving water bottle refill station with a single ergonomic palm push tap and smooth body contours.

Its streamline design integrates unobtrusively with the wall, while pigment-dense body colours make it clearly visible, even from a distance.

The **Wall Refill aquaBUBBLER** provides effective and convenient hydration, especially in thoroughfares and gathering places. Install it either as a stand-alone unit or in series for a Hydration Hub!

Secure attachment of the Wall Refill aquaBUBBLER via a corrosion resistant 304 grade stainless steel bracket means no rust on the wall.

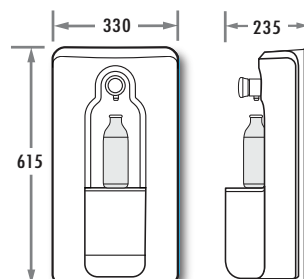

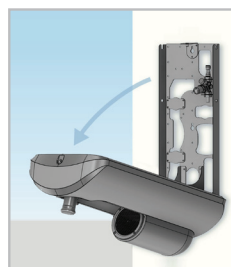

Several options for water supply and drainage are available, allowing installation on **ANY WALL**.

Principal materials are a super-tough, durable polymer (unit body) and stainless steel (taps and parts).

The **Wall Drinking aquaBUBBLER** is manufactured and assembled entirely onshore, right here in **AUSTRALIA!**

KEY FEATURES:

- Exclusively for refilling bottles
- Fold-down body design for ease of maintenance
- All metal parts proprietary & stainless steel - none generic or galvanised
