▶ Classic, Universal & Universal 2 aquaBUBBLER

Available in Single Colour / Colour Combo

Select and/or combine colours from our range to get the right look and feel for your setting.

One colour per body part:

▶ Wall Mounted Refill aquaBUBBLER

Available in Single Colour

Our Wall Mounted unit is available in monochrome, in any of our 12 colours.

Select a contrasting colour to break up monotonous wall space as well as to increase the visibility of your hydration feature.

▶ Twin Refill aquaBUBBLER

Available in Single Colour with Double Poster

Available in any of our 12 colours, the Twin Refill aquaBUBBLER features two poster panels, allowing you to communicate with your users as they hydrate.

Create your own graphic or choose from the aquaBUBBLER collection.

Fade Proof Colours

aquaBUBBLER bodies are made from a Polyethylene resin (LLDPE), a 100% recyclable material which conforms to AS/NZS 4766TT – 2006.

Our bodies are super-rugged, with an stylish and contemporary look. They will never scratch or chip, as the light-stable pigment is distributed throughout the material; NOT painted on.

Graphics Options Available

Display your organisation's identity or core values, as well as adding extra visual interest.

Our in-mould graphics are infused into the polyethylene resin body during manufacture, making them just as tough as the bodies themselves.
